# Mountain Ridge®

High-Profile Hip & Ridge Accessory

## The Difference is Noticeable

**Mountain Ridge®**, a Class 4 impact resistant, high-profile hip & ridge accessory is the perfect finishing touch for your roof with blended color and high-profile design.

The difference is noticeable by blending in. The blended color creates a unified look with the field shingles, instead of a "striped" look and it's rounded edges give a substantial, finished look.

Mountain Ridge meets the hip and ridge accessory requirements for the CertainTeed Integrity Roof System™ which is comprised of underlayments, shingles, accessory products and ventilation all working together.

**SBS-Modified Asphalt:** Provides flexibility; pre-formed shingles are less susceptible to cracking on cold install days, which increases productivity.

**Sealing Adhesive:** A continuous adhesive strip forms a strong bond to protect against rain and wind damage.

**Blended Color:** Creates a unified look with field shingles, instead of a “striped” look.

**Rounded Edge:** Gives a substantial, finished look.

**Tri-Laminate Base:** Creates a high-profile look and prevents sagging over time.

**Release Tape:** Keeps shingles from sticking together to save time and prevent damage. Increased safety and no messy slip sheets on site.

**Patent Pending Five Layer Design:** Up to 10% heavier than the competition, keeping Mountain Ridge® securely attached and improving wind resistance.
